Saline District Library

2022 to 2026 Strategic Plan
High-Level

Adopted: October 20, 2021

Process Facilitated by
Rob Cullin & Janet Nelson
OVERVIEW OF METHODOLOGY:
Beginning in January 2020, under the guidance of Saline District Library’s (SDL) Library Director and Board of Trustees, the strategic planning process was completed in October 2021 for the Saline District Library for years 2022 – 2026. Library consultants Rob Cullin and Janet Nelson of ReThinking Libraries (RTL) facilitated the process and analyses, but the library and their community made all of choices and decisions in the process.

The Process
SDL’s strategic planning process included the following key areas.

Gathering and analyzing community input and data, which involved benchmarking, demographic analysis, and collection analysis. In addition, SDL staff and Saline area residents were involved in exploring ideas and possibilities for the library as a thriving 21st century library. Stakeholder sessions were conducted by RTL February 5-7th, 2020. Participants included the general public, Saline City Council, educators, Coalition for a Quality Community, business leaders, the arts community, senior citizens, Friends of the Library, SDL staff members, and library trustees. Participants included frequent library users and infrequent and non-users and ranged in ages and backgrounds. Overall, one hundred three (103) stakeholders participated in the discussions regarding SDL’s services and strategic future. Since our process was interrupted due to the COVID-19 pandemic we conducted an additional staff session on August 27, 2021. In addition to the stakeholder sessions, an online survey was conducted between February 6th and March 5th, 2020. Four hundred twenty-eight (428) surveys were completed. Survey participants included frequent library users (81%) as well as infrequent and non-users (19%). Survey takers ranged from under 19 to over 75 years of age. About 77% of survey takers were between the ages of 26 and 65 years of age, 17% were over 65 and 4% were under 25 years of age.

Developing solutions during a one-day Strategic Planning Retreat held on August 28, 2021. During the Retreat, all data and community input was reviewed with a planning team of fifteen (15) people, consisting of the library director, staff members, library board members, community leaders, and the general public. From the data, the group worked to establish essential strategic areas, specific goals, and related investments required to implement the goals to help the library thrive over the next five years and beyond.

What We Heard
The stakeholder sessions and online survey explored several topics including customer service, youth services, adult services, local history and genealogy, outreach services, programming, technology and digital services, the facility/building, collections and resources, collaboration and partnerships, community awareness, and overall 21st century public library best practices. Detailed summaries of all stakeholder feedback and online survey results were provided in separate documents to SDL’s leadership and reviewed in depth during the Strategic Planning Retreat. All stakeholder input, data analysis, and follow-up exploration work led to the strategic focuses, goals, and investments outlined on pages six-ten of this document.

Evaluation & Collaboration
With the goal of achieving all outlined goals over the next five years, SDL administration, staff, and board of trustees will regularly evaluate their progress and achievements. Objectives set forth in this plan will be further detailed each year in a 12-month detailed work plan developed by the library staff. These annual 12-month plans will address specific actions, objectives, and goals in addition to specifying timing, required staff and financial commitments. In addition, the high-level plan contained in this document will be re-evaluated each year by the board prior to the development of the next 12-month plan to ensure the high-level goals still align with the needs and goals of the community. This balanced and systematic process also emphasizes that the resulting plan will be iterative and evolve substantially over the next several years.

The keys to SDL’s implementation, evaluation and, ultimately, the success of its strategic plan will be:
- A thorough understanding of the plan as well as active involvement in implementing the plan by staff and the Board of Trustees
- Frequent and ongoing communication between administration and staff
- Frequent and ongoing communication between SDL’s staff and its community
- Active collaboration between SDL’s Board of Trustees, City Council, administration, staff, outside organizations, and the community
